EDUCATION

B.E. in Information Technology (2022 - 2026)

Pimpri Chinchwad College of Engineering and Research (PCCOER), Pune | **CGPA: 8.7 / 10**

TECHNICAL SKILLS

Languages: Java (Core, OOP, Collections, Concurrency), Python, SQL, JavaScript, HTML5, CSS3

Frameworks & Tools: Spring Boot, Spring Security, Hibernate/JPA, RESTful APIs, Node.js, Express.js, React.js

Databases & WebSockets: MySQL, MongoDB, Redis, WebSockets (STOMP / SockJS), JDBC

DevOps & Platforms: Git, GitHub Actions, Docker, Linux, Postman, Vercel, JUnit

FEATURED BACKEND & FULL-STACK PROJECTS

Real-Time Chat Application (Spring Boot, React.js, MongoDB, WebSocket/STOMP/SockJS)

- Engineered low-latency bidirectional chat streaming supporting 100+ concurrent socket connections over STOMP/SockJS.
- Integrated reactive MongoDB persistence layer, delivering sub-50ms message storage and chat history retrieval.
- Deployed modular React.js user interface featuring live presence indicators and auto-reconnecting socket sessions.

BudgetWise – Smart Personal Finance Manager (Spring Boot, React.js, MySQL, REST API, JWT)

- Developed stateless RESTful micro-services with Spring Boot and JWT security, securing 15+ API endpoints with RBAC.
- Engineered relational MySQL database schema with optimized indexing for multi-category transaction analytics.
- Integrated interactive visual dashboards using React and Chart.js for real-time spending insights.

IRCTC Backend – Railway Ticket Booking System (Java, JDBC, MySQL, HTML)

- Designed ACID-compliant transaction manager handling concurrent seat reservations and automated waitlist queues.
- Implemented multi-tier fare calculation algorithm and train route lookup using optimized MySQL queries.
- Enforced role-based authentication separating administrator capabilities from passenger management actions.

FundChain – Decentralized Crowdfunding Platform (Solidity, Ethereum, Web3.js, React)

- Authored and tested Ethereum smart contracts in Solidity for trustless milestone-based fund releasing.
- Integrated Web3.js with MetaMask wallet authentication and dynamic React frontend for campaign tracking.

EXPERIENCE & CERTIFICATIONS

Technical Club Contributor | ACM PCCOER Technical Club

- Collaborated in Agile sprint planning, building full-stack web applications and mentoring junior peers in Java/DSA.

Certifications: Oracle Cloud Infrastructure (OCI) AI Foundations Associate, Java Developer Certification, Generative AI Fundamentals.

Achievements: 2nd Place at Concept Carnival 2023 for Harvest Hub (agri-supply chain platform); 200+ LeetCode problems solved.
